RAIN

A great many people spent quite a considerable time yesterday looking, through their windows as though they had never seen rain before, and just wondering when on earth it would stop. Others stood huddled up in doorways, talking conventional bunkum about the weather to complete strangers. And there were some others—these were not deterred from pursuing the even tenor of their way, but then these simple-looking folk had a trump card up their sleeves—they had . . . .

The increased demand for Alesbury's famous Gold Medal Traps makes it very desirable that orders should be placed as early as possible so that delivery may be expedited.

Take the opportunity of seeing at the Show the kind of Trap about which customers write as follows:

Rockchapel, Dec. 9th, 1916.

Dear Sirs,

I am glad to tell you I am delighted with the Trap. As to the fit and finish it is a first-rate article. It is all I expected it should be coming from your firm. I give my best thanks for the trouble you have taken to satisfy my rather exact requirements as to mounting, upholstering, etc., as well as for your courtesy in our rather lengthy correspondence.—Faithfully yours,

J. BUCKLEY.

R.D.S. AGRICULTURAL SHOW.

THIRD DAY.

The third day of the Royal Dublin Society's Summer Show at Ballsbridge yesterday opened under somewhat depressing conditions. Heavy rain fell during the morning, but diminished to a light drizzle in the afternoon, when the sun made a brave struggle for supremacy. The attendance, rather thin at first, improved as the day wore on, and as most of the judging was completed visitors had ample time to survey the various exhibits in each department.

In the spacious Main Hall interest centred chiefly in the display of machinery and other manufactures required by farmers, their busy tenants flocked around the interesting poultry department of the Department of Agriculture. This includes pens of fowl representing the different breeds. Incubators are shown in full operation, also chicks in various stages of development, in cosy brooders and outdoor coops, while there is also a number of hens in fattening pens, hatching boxes, and other structures required in order to make poultry-keeping profitable. The other sections of the Department likewise exhibit and also commanded attention, and the officials in attendance were kept busy answering questions regarding the exhibits, which, however, are so clearly labelled as to render explanation almost unnecessary. Amongst the goats the first stage of the milking competition was in progress, and it was interesting to learn that a large number of sales have been effected, the top price so far realised amounting to £35. Rabbits again present a great draw for those who might be described as small holders, as well as amateur fanciers of the "bunny." Here there was great inquiry except for the Blue Beverns, which sold well, not, perhaps, because of any special merit, but owing to their having become the fashion in England a cross between Blue Beverns and Belgian hares has been found extremely valuable for the table, and the demand has been on that account that the new class established here was so well supported. Last year the run was on Flemish Giants, which seem to be somewhat out of favour at present.

Amongst sales in the cattle department they are mentioned that of Lord Ranfurly's second prize four-year-old Hereford bull, Delights III., at 100 gns. to Lord Barrymore. Mr. H. B. Gill's champion Suffolk ram lamb was sold for £35. The horse-shoeing competitions were resumed at an early hour, and a number of meetings were on the programme, the Irish Aberdeen-Angus Association, the Traction Owners' and Users' Association, and the Irish Farmers' Union all coming together for special business at different times. In the intervals between the typical shows which fell during the day the machinery paddock came in for a good deal of attention. Rain or shine, this was a hive of industry, with snorting petrol engines, humming threshers, smooth-running oil engines, revolving hay elevators, power pumps, and other machinery in motion. A couple of well-known milking machines were again in operation in the shed at the back, and their regular owners did not cause the slightest inconvenience to the cows being milked. It was refreshing to step aside from the unwearying motion of the display and enter bright and sweetly-perfumed halls occupied by the Royal Horticultural Society of Ireland, where the flowers and vegetables shown were closely inspected, the ladies especially lingering long over some of the choicest blooms.

A largely attended meeting of the Traction Engine Owners' and Users' Association was held in the Committee Room during the afternoon. A very full discussion took place on the question of charges for threshing, but, owing to the conflict of evidence brought forward, it was decided to postpone the question for further consideration.

The parades of horses and cattle were cancelled owing to the inclemency of the weather at the time they should have taken place.

Beekeeping lectures and demonstrations were held as opportunity offered, although the weather conditions for such a feature were not ideal.

Broken weather had no deterrent effect upon the crowd which made a point of seeing the butter-making competitions, all the operations being watched with intense interest.

Members of the Irish Farmers' Union began to gather in goodly numbers about an hour before their meeting at 3 o'clock, and there was a very large attendance presided over by Mr. W. J. Butler, J.P. (President). A report of this meeting will be found in another column.

VISIT OF THE CHIEF SECRETARY.

The Chief Secretary paid a visit to the Show during the afternoon. He was received by the Right Hon. Frederick Wrench, P.C., and remained for over an hour examining the different exhibits. The visit was purely private.

JERSEY CATTLE.

The Cedar Challenge Cup, for the best yearling bull exhibited by a resident in Ireland, was awarded to Alfred Werner, of Rockmount, Dundrum, for his bull Rockmount Much Noble.

AWARDS FOR NEW IMPLEMENTS.

The following awards have been made for new implements:—

Silver Medals—Harrison, McGregor and Co., Ltd.—No. 1. Potato planter (Albion); Ransome, Ltd.—No. 4. Combined side delivery rake, swath turner, tedder and wind-rower; Irish Agricultural Wholesale Society, Ltd.—No. 6. Trundle flat roller; Stockstone and Co., Ltd.—No. 9. A combined swath turner and side delivery rake; T. Lister and Co., Ltd.—No. 11. Cockshutt 2-furrow self lift tractor plough.

They highly commended—Wolseley Sheep Shearing Co., Ltd.—No. 2. Wolseley 30 cream separator (table machine); Ransome, Ltd.—No. 5. Frost action side delivery rake.

The judges are having further trials at Glasnevin, with a view to awarding additional medals if there is sufficient merit.

IRISH ABERDEEN-ANGUS ASSOCIATION.

At a meeting of this Association, held in the Committee Room, Ballsbridge, Mr. F. J. Reynolds, M.R.C.V.S., presided, and a discussion took place regarding subscriptions for the Cup to be offered for a group of Aberdeen-Angus cattle at the Summer Show. Regarding the smaller subscription, it was suggested that this should be extended so as to include all breeds, in addition to shorthorns. It was desirable that young men should be trained as judges of all breeds, and for that reason it was decided to ask the Royal Dublin Society to arrange that all breeds of cattle should be selected for the amateur judges to try their skill upon.

The Chairman again brought up the unfair action of the Department in reducing the amount of premiums awarded to Aberdeen-Angus and Herefords. They should make a determined effort to prevent this invidious discrimination against the beef breeds being continued. It should be left to the Committees to decide which breeds would suit their farmers best; but it was certainly not fair to favour shorthorns and minimise the value of Aberdeen-Angus and Herefords. It would indeed to bring the matter specially under the notice of the Department of Agriculture before the premium arrangements are made for next year.

IRISH FARMERS' UNION.

INTERESTS OF IRISH FARMERS DISCUSSED.

A meeting of the Irish Farmers' Union was held in the Boardroom of the Royal Dublin Society's premises at Ballsbridge yesterday, Mr. E. A. Butler, J.P., presiding.

Arising out of the decision come to by the Union to produce a newspaper, the Chairman stated that the Northern Association had declined to affiliate with that Union in the project. The Union had decided to go on with the paper, and, although the prospectus had been issued only that morning, a large number of shares had been purchased.

The Secretary said they had over £800 worth of shares had been purchased already.

Mr. Dawson, Carlow, asked why the Ulster Farmers' Association had not joined in with the Irish Farmers' Union.

The Secretary said that he believed the Ulster Association were starting a newspaper of their own.

The Chairman raised the question whether the Union ought to accept affiliation from any Ulster counties that applied for such.

CARDIFF CONFERENCE.

A deputation was appointed to attend a Conference of Farmers' Unions of England, Scotland, and Ireland on the 26th inst., at the Royal Agricultural Show at Cardiff.

THE EXTRA TAX ON SPIRITS.

A resolution was received from Kilkenny, viewing with alarm the action of the Government in imposing an additional tax on spirits, and stating that the industry being vital to Irish farmers, the new tax would mean the robbing of the country of £10,000,000.

Mr. Maher, Kilkenny, who proposed that the resolution be adopted, said that the new tax would cripple the growing of barley, and as Standen Hill, and their regular customers did not cause the slightest inconvenience to the cows being milked. It was refreshing to step aside from the unwearying motion of the display and enter bright and sweetly-perfumed halls occupied by the Royal Horticultural Society of Ireland, where the flowers and vegetables shown were closely inspected, the ladies especially lingering long over some of the choicest blooms.

Harrison, D.L., and subsequently Mr. James Cosy, President, in the chair. Also present—Lord Rathdonnell, H.M.L., Messrs. Charles M. Doyne, D.L., Jamers Budgen, W. Small, Alex. Cameron, L. A. Beamish, Gavin Low, Richard Wright, R. K. Wright, R. R. Campbell, R.Sc., Major C. K. O'Hara, H.M.L., and Major W. J. Hamilton. Apologies for absence were received from Major E. J. Richardson, D.L., Lord Carew, Dr. Raskin, and Mr. Francis Gubbins, past President.

On the motion of Mr. Cameron, seconded by Lord Rathdonnell, the report of the Committee of Management for 1918 was adopted.

Dr. Edward H. Taylor was elected Vice-President for the ensuing year, and Mr. R. R. R. Livingston was reappointed as auditor. The following seven members were elected to fill vacancies on the Committee—Sir Gilbert Greenall, Bart., Major E. W. Doyne, Messrs. F. W. Gorman Best, W. R. Henderson, R. D. Best, James S. Gordon, and W. J. Grey.

The motion of which Mr. Cameron had given notice with reference to the proposed removal of restrictions on the importation of Canadian store cattle having been fully considered, Mr. Cameron withdrew his motion in favour of the following resolutions, which were proposed by Lord Rathdonnell, seconded by Mr. C. M. Doyne, and unanimously adopted:—"That the Irish Shorthorn Breeders' Association desire to call the attention of the President of the Board of Trade to the fact that the Irish cattle interest is not represented on the Committee now sitting in London to consider the future of the meat supply of the United Kingdom, and to request that a representative of the Irish cattle-breeding industry be appointed on the Committee with as little delay as possible; and, further, that this Association would regard any attempt to admit Canadian store cattle to the United Kingdom as a menace to cattle-breeding and meat production in Ireland."

It was ordered that a copy of the foregoing resolution should be sent to the President of the Board of Trade, with a covering letter from the Chairman urging the paramount importance of the matters referred to.

SPORTING NEWS.

LIMERICK JUNCTION MEETING—YESTERDAY.

ROMAN BACHELOR WINS JUNCTION PLATE.

The weather underwent a remarkable change on Wednesday night, rain setting in about 9 o'clock, and continuing right through the night and morning. It never ceased all day yesterday, and visitors for the second day's racing, which was of a far more interesting character than that of the previous day, had a very unpleasant experience. The gelding by Ardoon and Red Alice, who showed favouritism for the Welter Plate, also fought out the finish, but the former never looked like being caught, and scores easily. Magical Mike, recently sold to General Sir Hugh Smyth, was in front all the way in the Sprinters' Plate, and though seriously tackled close home by The Hare Bill, held out to the end, and won cleverly for his new owner, who has purchased a number of horses since his arrival in Ireland. Buchner's Heather played no better than any of the others in the Moderate Plate, in which Hair Spring again ran in disappointing style. The changed state of the going made Mr. Fletcher alter his decision to run Galaxy Gate in the Limerick Junction Plate, but the stable was represented by Quispidor, who was in receipt of 12lbs. from Roman Bachelor. The latter, naturally, was an odds-on favourite, and, making the running from the start, the son of Bachgat's Double won in comfortable style from Vindaloo and Quispidor. A hundred yards from the winning post the second and third closed with the winner, and momentarily looked like beating him, but when Beary roused Roman Bachelor, he responded quickly, and drawing out again, won as stated, with a bit to spare. Always was made favourite for the Maiden Steeplechase, but never had to be content with second place, Cleaves winning in easy style. There were many mishaps during the race, only five of the ten runners completing the course, and Sebastrum was early declared a runner for the Slavers' Plate, he was not pulled out, and Lot Low was indulged with a walk-over. Details—

2.30—WELTER PLATE of 75 sovs. A weight-for-age flat race. 1½ m.

WATER POLO.

DUBLIN UNIVERSITY v. SANDYCOVE.

There being five entries for the water polo tournament in connection with the Rag Tide, a preliminary match was necessary, and this was played yesterday at Blackrock Baths, when Dublin University were opposed by Sandycove S.C. An excellent game resulted, in which, from a shot by Purcell, Trinity early took the lead before half-time, however, Fagan equalised for Sandycove, and, with an even second half, the score was one goal all at full time. An extra period was then ordered, and during this Owens scored with a fine shot for Trinity. Result—Dublin University, 2 goals; Sandycove S.C., 1 goal.

POINTS IN THE LOAN PROSPECTUS.

The £40 which took place in existing British Government securities on the London Stock Exchange yesterday is, says the Financial Editor of *The Times*, a measure of the City's views of the terms of the new loans offered for public subscription to-day. This decline, which reached a point in the case of Consols, shows that, good though the terms are, they are not considered high. Of course, there are people who do not hesitate to criticise the generosity of the terms. In the case of the Four *per cent.* Loan, offered at 85, it is pointed out that the loan cannot be paid off before 1960, when stock placing British credit on a 5 *per cent.* basis for the next forty years. With regard to the terms offered to holders of conversion stocks, the drafting of the prospectus certainly open to criticism. The rate of discount on the 5 per cent. War Bonds will be accepted at the option of Treasury, and there were also 5 per cent. Exchequer Bonds of 1919. The General Officer Commanding in Ireland, Lieutenant-General Sir Bryan Mahon, K.C.B., D.S.O., was raised to the rank of Lieutenant-General, and there were also promotions to the rank of Major-General of Colonels of the Irish Regiments, including Brigadier-General Sir Arthur Chichester, K.C.B., C.M.G., Colonel of the Royal Irish Regiment, and Brigadier-General Sir Hugh Tudor, K.C.B., C.M.G., Colonel of the Royal Irish Fusiliers. Colonel Sir Arthur Barrett, Bart., D.S.O., Colonel of the Royal Irish Regiment, was appointed Aide-de-Camp to the King. Lieutenant-Colonel Sir Bryan Mahon, Bart., D.S.O., Colonel of the Royal Irish Rifles

IRISH PACKING COMPANY.

THE ATTACK ON THE DIRECTORS.

SIR ARTHUR DU CROS'S REPLY.

COMMITTEE TO SELECT NEW DIRECTORS.

An extraordinary general meeting of the Irish Packing Company, Limited, was held on Friday last at 15 Regent street, London, S.W., in pursuance of a requisition signed by holders of one-fourth of the issued capital of the company, for the purpose of considering, and, if approved, carrying the following resolution into effect:—

"That a meeting be called to the effect that the meeting is dissatisfied with the conduct of the directors, and calls upon them to retire, and determines that the following shall be elected to act as directors of the company."

A resolution, or resolutions, pursuant to Article 80 of the Articles of Association, removing all or such one or more of the directors now holding office as the meeting may seem expedient, and appointing in addition to the effect that Messrs. Samuel Kelly, Chairman, John Kelly, Ltd., Samuel Kelly, Jr., Pender, director, E. and H. Hall, Limited, Westerly, Captain W. A. Redmond, D.S.O., M.P., Major Bernard Darby, D.S.O., M.C., Messrs. Thomas Scanlan Industries Association, Limited, Patrick McKenna, M.P., President, Irish National Federation, Limited, Mr. Stephen Mac——, or any of them, be elected directors of the company, in place of those resigned or removed.

Sir Arthur du Cros, Bt., Chairman of the company, presided.

The following resolution notice convening the meeting, and that in the somewhat disorderly proceedings which followed in the meeting had been removed it was necessary that the question raised should receive some attention, and he thought it was essential that in the interests of the company their deliberations should proceed with a modicum of decorum and in a businesslike manner. It was also necessary that one report should be given to the company of the proceedings of the meeting. He would explain that the Dunlop Company had nothing to do with their company, and that the only connection they had with the Dunlop Company was that they were shareholders. He could sum up, Sir Thomas Robinson said Mr. McCann, on behalf of the company, said in the first place that it was intended as a monopoly, and that the company was purposely designed to assist the country in a time of difficulty, and it had appealed to him on that ground, and another point raised by Mr. Kelly was that the company had been brought into existence with a different live-stock trade. Consequently, he could claim, as he had done, that he had a knowledge of those matters, and he was saying this to establish his credentials.

Proceeding, Mr. Forde remarked that the directors had been acquired, and that a considerable proportion of the plant was already erected, and that a company was formed. He stated that tanning operations would be commenced in an early month, and not difficulty was anticipated in getting hardware or such typical as transport. All that implied that to some extent the buildings were already installed, and that consequently the third resolution would be out of order. A very important point was that the directors had been consulted in regard to the speech of the Chairman, and that the company should be in a position to take the earliest advantage of the relaxation of restrictions on the export of hides. He (Mr. Forde) had received communications from Mr. Barr protesting against the use of his name in the circular, and he had a letter from that gentleman—especially from the correspondence, it was established that when the circular was issued those gentlemen had no right to use Mr. Kelly's name. He did not think it was quite fair play to attack a gentleman under a reference of names which is themselves were quite acceptable, but which should not have been used against the directors. He was a fact that the second circular was not signed either by Dr. Parker or by Mr. Kelly, to the second circular to the directors. The point he would make about it was that their Board was not a full Board. There was no full quorum of the Board present to assist the company in any of the matters which had claimed attention. Mr. Barr was in full accord, up to the time he left the Board, with everything the directors were doing in those matters. He entirely disagreed with these suggestions of Mr. Forde reduced it to 7½ per cent. as little, in fact, did that any of those gentlemen were lacking in knowledge in any department of this business. After all, the shareholders should give their directors some opportunity of justifying their management; something should be left to the discretion of the Board, and their selection of those gentlemen had been made very carefully. He thought they had been extremely fortunate in securing their services. They were entitled to some time to prove whether their plans were sound or not. He maintained that they were. Now, the first circular also put forward the names of the gentlemen who were unknown to him, and he presumed to have the fullest knowledge of a business of that kind. He had said that some of these had been put forward without the authority of the gentlemen named.

The first place, to Dr. Parker. This gentleman was one of the founders of the company, and, under his agreement, was to join the Board when his official duties permitted.

Where the Stock or Bonds surrendered do not represent the exact sum required to pay for an Allotment (which must be a multiple of £80), the requisite balance must be provided in cash. Interest accrued to 21st June, 1919, will be paid on holdings surrendered, and the Bonds issued in lieu of such holdings will receive the 1st March, 1920, the dividend appropriate to that date in respect of "Fully-paid Allotments" applied for on or before the 21st June, 1919. In the case of the £5 per cent. Exchequer Bonds, 1920, an additional payment will be made representing interest at 1 per cent. from the 21st June 1919 to the 16th February, 1920, upon the holdings surrendered.

NOTE.—Applications paid for in whole or in part, by the surrender of Stock inscribed or Bonds registered in the Books of the Bank of Ireland must be forwarded to the Bank of Ireland, Dublin.

Stock registered in the Books of the General Post Office, and Bonds issued by the General Post Office, will not be accepted at the Bank of England, but may be surrendered at the Post Office under the arrangements set forth in the separate Prospectus issued by H.M. Postmaster-General.

The Principal and Interest of the Bonds will be a charge on the Consolidated Fund of the United Kingdom.

His Majesty's Government undertake to set aside at the close of each half-year a sum equal to ½ per cent. on the nominal amount of the Bonds originally created. After deducting therefrom the amount required for payment of interest on the Bonds for the half-year, the balance for the time set aside will be carried to a Sinking Fund which will be applied by means of annual drawings in the month of April of Bonds at par (including Bonds which have been surrendered to the Commissioners of Inland Revenue for death duties as hereinafter provided), the Bonds to be redeemed in each year being determined by the amount of the Sinking Fund available for the purpose in accordance with regulations made by the Treasury. The numbers of the Bonds drawn for redemption on each occasion will be advertised in the "London Gazette," not less than two months prior to the date of redemption. Interest on Bonds drawn for redemption will cease from the date on which the Bonds become repayable. The first drawing will take place for the Bonds to be redeemed on the 1st September, 1930.

Bonds of this Issue will be accepted at their face value by the Commissioners of Inland Revenue as the equivalent of cash with due adjustment on account of interest, in satisfaction of amounts due on account of Death Duties, provided that the Bonds tendered have been registered in the name of the deceased continuously up to the date of death from the date of the original subscription or for a period of not less than six months immediately preceding the date of death. Bonds surrendered under these provisions will be held for account of His Majesty's Government until drawn for redemption as provided in the preceding paragraph.

Bonds of this Issue and the interest payable from time to time in respect thereof will be exempt from British Income Tax, present or future, so long as it is shown in the manner directed by the Treasury that they are in the beneficial ownership of persons who are neither domiciled nor ordinarily resident in the United Kingdom of Great Britain and Ireland.

Further, the interest payable from time to time in respect of Bonds of this Issue will be exempt from British Income Tax, present or future, so long as it is shown in the manner directed by the Treasury that the Bonds are in the beneficial ownership of persons not ordinarily resident in the United Kingdom of Great Britain and Ireland, without regard to the question of domicile. Where Bonds are in the beneficial ownership of a person entitled to exemption under these provisions, Coupons will be paid without deduction for Income Tax or other taxes if accompanied by a declaration of ownership in such form as may be required by the Treasury.

Bonds of this Issue may be registered in the Books of the Bank of England. For this purpose the Bonds must be lodged at the Bank to be endorsed with particulars of registration, and will be re-delivered to the registered holders. Registered Bonds will be "Transferable by Deed" and may be re-converted into Bonds to Bearer by means of transfer.

Dividends will in all cases be paid by means of Coupons attached to the Bonds, whether registered or to bearer.

Bonds with Coupons attached for the dividend due 1st March, 1920, and subsequent dividends will be issued in respect of "Fully-paid Allotments." Bonds issued in respect of applications paid for, in whole or in part, by the surrender of Stock or Registered Bonds in all cases be registered in the names of the holders in whose names the surrendered holdings stood. Allotments made in respect of applications paid for, in whole or in part, by the surrender of Bearer Bonds will in all cases be made in Bearer form.

Allotment Letters with Coupon attached for the dividend due 1st March, 1920, will be issued in respect of "Instalment Allotments," and, when paid in full, may be exchanged on and after the 1st March, 1920, for Bonds with Coupons attached for subsequent dividends.

The instalments payable in respect of "Instalment Allotments" may be paid in full on or after the 8th August, 1919, under discount at the rate of 3½ per cent. per annum. Where payment in full is made between two instalment dates, discount will be calculated as from the instalment date next succeeding the date of such full payment. In case of default in the payment of any instalment by its proper date, the deposit and any instalments previously paid will be liable to forfeiture. Payments may be made without additional charge at Offices of the undermentioned Banks in the United Kingdom.

A commission of one-eighth per cent. will be allowed to Bankers, Stockbrokers, and Financial Houses on allotments made in respect of applications for Bonds, and paid for wholly in cash and/or by the discounting of Treasury Bills. No commission will be allowed on Allotments paid for, in whole or in part, by the surrender of Stock or Bonds.

Application Forms for

(1) "Fully-paid Allotments,"
(2) "Instalment Allotments,"

to be split up wholly in cash and/or by the discounting of Treasury Bills, may be obtained at the Bank of England and at the Bank of Ireland, at any Branch of either in the United Kingdom; or Messrs. Mullens, Marshall, and Co., 13 George street, Mansion House, E.C. 4; and of any of the principal Stockbrokers.

Applications Forms for "Fully-paid Allotments," to be paid for, in whole or in part, by the surrender of Stock or Registered Bonds, have been sent to all inscribed and registered holders (in the case of a joint account to the first holder) of issues receivable in lieu of cash. Further Forms can be obtained—

1 (a) For the surrender of holdings registered or inscribed in the Books of the Bank of England } at the Bank of England, London, E.C.
(b) For the surrender of Bonds to Bearer

2 For the surrender of holdings registered or inscribed in the Books of the Bank of Ireland } at the Bank of Ireland, Dublin.

Applications for these Forms must state the description of holding which it is desired to surrender.

The Lists of Applications will be CLOSED on SATURDAY, the 12th JULY, 1919.

Bank of England, 12th June, 1919.

FINANCIAL NEWS

DUBLIN STOCK EXCHANGE.

Anticipations as to the terms of the new War Loan, the violently sudden change in the weather, the counteractions of the R.D.S. Agricultural Show and sundry fetes being held, all militated against business briskness on Grange yesterday, and there were, in consequence, fewer points of interest. The Funds were less firm, and War Loan 5 p.c. lost Wednesday's gain. Banks were neglected outside Bank Stock, which gave way 1½. Guinness issues rallied, but Dublin Distillers Pref. further declined. City Steam, though again lower, was bid for. Marconi Shares were lower. The "Marine" accounts for 1918 are very good. The dividend, 15 p.c. for the year, "looks" unchanged, but the distribution, concerning also the new shares just issued, is in reality equal to 25 p.c. on the capital employed last year. Rails varied a little, and presented no feature. Dunlops were idle. Dunlop Rubber Ord. did not quote, but appeared to be about 7½. Textile Shares were well held at yesterday's improved prices. Drapery Shares showed gains when quoted.

Government Funds closed dull. Consols fell ¼ to 53½, and War Loan 5 p.c. ½ to 98½. On Bank, Bank and Ireland fell ½ to 220. Others were neglected.

As regards Breweries and Distilleries, Guinness Ord. rallied ½ to 38½, and the Pref. ⅛ to 11½, while Dublin Distillers Pref. fell ⅞ more to 54.

In Steam, City of Dublin Stock fell ¼ to 179 buyers, and in Telegraphs, Marconi Ord. fell 1s. 3d. to 125s. 9d., 128s. Other issues were neglected.

The changes in Home Rails were trifling, and include a rise of ½ to 74½ in Midland Stock, and a fall of ¼ to 74½ in Great Southern and Western Ord. Stock. Railway Pref. Ord. Stocks are quiet and unaltered.

In Trams, Dublin United Pref. fell ⅛ to 10½.

Among Dunlops, Parent Tyre Ord. again marked 30s., and were the only shares to quote.

Gas, Bakery, and Trading Shares were all idle.

Drapery Shares were wanted, Crowe Wilson Ord. rose ¼ to 8½, and Pim Brothers Ord. ⅛ to 7½.

Manufacturing, etc., Shares were mostly steady, but without feature. Vickers fell 3d. to 53s., and the New 1½d. to 56s. 1½d. Beaufort, Cairnes, and Dobbins were all dealt in at yesterday's enhanced closing prices. Lever Brothers "A" Pref. hardened 1½d. to 21s. 1½d., and Irish Times 2nd Pref. 3d. to 17s. Imperial Tobacco fell 1s. to 90s., but Canadians rose 4½d. to 26s. 7½d.

THE MONEY MARKET.

Bank Rate (changed April 5th, 1917) .... 5 p.c.

Business was rather held up by Loan preparations, and there was no change in rates. Call loans' supplies were again excessive, and the usual opening 2 per cent. rate soon came down to 2½ per cent., while in the afternoon 2 per cent. and less was quoted. Finance, however, were checked after the Loan was announced, and the dividend payments exceeded a quarter of a million, while £10,000 of Exchequer Bonds and £5,000 of 5 per cent. notes were paid off. Discounts were quiet, and despite the numerous efforts of the Loan bone efforts to establish higher rates most of the day, there was some enquiry for two and three months' fine drafts, and 3 per cent. was the better-dealed paper offered at 3¼ per cent.

LONDON STOCKS FLAT.

NEW LOAN FAVOURABLY RECEIVED.

Stock Exchange dealings were attenuated in the extreme, but, nevertheless, the public awaiting the terms of the New Funding Loan, which was duly issued after market hours. The main Funding Loan is of 5 p.c. at 85, while an issue of 4 p.c. Victory Bonds at 83, redeemable at par by annual drawings, commencing 1930, is also announced. On the whole the City has received the terms of the finance favourably. The total of both Loans is apparently unlimited. Gilt-edged Securities presented a spotty appearance, and there was another gap towards the close, to 53, while War Five, at 94¾, lost the turn; the 3½ p.c. and 4½ p.c. Loans were strengthening both. Gilt-edged issues ruled quiet and reserved throughout. The demand for short-term securities was less pronounced, but the tone in the rate of discount, though Indian Government issues were again facilitating.

Changes.—Falls.—Consols, ½ to 53; 5 p.c. War Loan, ½ to 98; 4½ p.c. Loan, ¼ to 96½; India 3 p.c., ½ to 57½; do. 2½ p.c., ½ to 66½.

FOREIGN BONDS.—Little business in the foreign market there was little buoyance to the tone, and the tone was dull. French Fives further receded ¼ to 79½, but the Fours again showed resistance. Russian issues were without recovery. Among South American a very limited volume of transactions was reported, and Brazilian and Peruvian descriptions were inclined to move against holders.

Changes.—Rise.—Orient, ¼ to 22½. Falls.—French Loan, ¼ to 79½; Mexican Fives, ¼ to 73½; Russian, ¼ to 4½.

HOME RAILS DECLINE.—The volume of business in Home Rails was limited, and, indeed, in all else elsewhere. Quotations, where they varied, moved with indecision. There were scattered falls of ¼ among Trunk and Trade Stocks. The Passenger group was very colourless. Underground were dull, and Metropolitan Deferred sold at 54½. Tramways were without feature. Canadian Pacific were inclined to heaviness, though much stock did not change hands. The quotation was finally down to 175¾. The labour news, however, remained favourable to the line. Grand Trunk issues were steady. Mexican Rails ne- gained a point, but closed unchanged, the report having no material influence either way. There was enough support for Argentine Rails to carry quotations forward here and there. Further westerly traffics were fairly helpful. Brazilian Rails were slow.

Changes.—Rises.—North Eastern, ¼ to 93. Underground Electric, ¼ to 96; Metropolitan Def., ¼ to 153; B.A. Great Southern, ¼ to 67½; B.A. and Pacific, ¼ to 8¾; and Western, ¼ to 68½. Falls.—Great Central Def., ¼ to 61; Great Western, ¼ to 85½; London and North Western, ¼ to 94½; Midland Def., ¼ to 74½; Great Northern Def., ¼ to 82; Canadian Pacific, ¾ to 175¾.

INDUSTRIALS CHEERFUL.—Miscellaneous and Industrial Securities were spotty, with cheerfulness in places. Courtaulds were a feature of outstanding strength, jumping 1 to 9s on revived buying. The Wireless group was quiet, but Canadian Marconis were firm on the announcement of the new capital proposals. Shipping issues were not always so good. Royal Mails reacted ¼ to 172½; but P. and O. Def. held its ground. Cements came in for better support, Associated Ord. rising 4 to 71s. In the Calverts and Supply section Hoveny jumped 5 to 55s. Maypole Def. was firm at one 25/- on the interim dividend. Lyons and Lyrical Ord. held firm. Harrods fell back ¼ to 44s on realising. In the Land group Hyams's Bays were up to 24s, while Fenwicks marked up to 5 on the capital reorganisation scheme. Breweries were mostly good. Ansells Pref. was up to 26. Among Tobaccos Imperial Tobacco were in demand at 90s., but Imperial Ord., at 89½, lost another 1/-. Brunner Monds were firm at 3 on the proposed capital increase, but Mond Nickel gave way to 44. Explosives Ord. eased to 2. Engineering issues were quiet.

Changes.—Rises.—Marconi Canada, 6d. to 16/6; Associated General, ¼ to 7¼; Courtaulds, ⅛ to 9½; Court Line, 1/6 to 37/6; Lipton, 1/6 to 34/-; Maypole Def., ⅛ to 1¼; Vickers, 3d. to 57½; Allsopp Pref., 1s. to 75; Hudsons Bay, ¼ to 6¾; Falls.—Borax Def., ⅛ to 2; Harrods, ⅛ to 44; Imperial Tobacco, 1/- to 89½; Mond Nickel, ¼ to 4; Royal Mail, 2 to 172½.

MINING MARKET HEAVY.—There was little sustained vigour among Mines. The Kaffir market still lacked a good lead, though Johannesburg advices were not unfavourable, and there was further inside buying of Johannics in the Finance group. Goldfields were another hard spot. Charterreds continued flabby among Rhodesians, but Tanks and Lonrhos and one or two others rallied a little. Diamonds recovered a slight forenoon setback on realising, and closed unchanged. The better Rosiland Mining news caused a slight rally in Sherlocks. Aramayo Francke registered a moderate spurt to 3d. Colombian Mining are dearer. West Africans were hard, Lucky Chances showing some strength on the news from the property. Copper and tin both rose 10/- per ton.

RUBBER MARKET REVIEW.—A dull tone in the commodity market—the price of rubber is not better than 1/9 per lb.—and the forthcoming issue of the Victory Loan have been two influences combining to cause stagnation in the shares market. Dealings have been subject to narrow limits, and, with one or two exceptions, fluctuations are lower all along the line. Considerable interest has been aroused by the views expressed at the recent meeting of the International Association for rubber cultivation in the Netherlands Indies. According to the Financial Times, the Chairman, after touching upon labour difficulties and the necessity for vigilance in guarding against disease on the estates, called attention to several factors illustrating the altered conditions arising out of the war. Briefly, these are (1) the large increase in the use of motor lorries, accompanied by the reduction in the number of horses. The President of the Goodyear Company predicts that the number of motor trucks used for agricultural purposes in the United States of America will be increased from 400,000 at the present time to 4,000,000 within five years after the war, representing an annual consumption of about 48,000,000 tyres. (2) The demand which is springing up for rubber footwear, owing to the scarcity of leather, and for rubber compositions as a substitute for linoleum for floor covering. The consumption of oils and fats for nutrition will render the use of fat for industrial products, such as linoleum, very difficult, if not impossible. (3) The rise of such young countries, in the industrial sense, as Canada, Australia, and some South American States, as well as Japan, whose consumption of rubber in connection with agriculture and industry is capable of expanding. This will, probably, fully compensate for the temporary decrease which the uncertain situation in Central and Eastern Europe may cause for the moment. On the essential points, the Chairman declared that no apprehension need exist as to the influence of the war on the prospects of rubber-growing.
